

Experts say that the Coronavirus can survive on door handles for up to nine days!<sup>1</sup>

Patented design

## Cup Handle

Hygienic adaptation to your current door handle, enables door opening with your arm preventing transfer of germs from handles to hands.

The patented cup socket controls the position of your arm and stops your hand from brushing the door:

- Delivers full control of the door:
  - latch lever operation
  - pulling the door
  - pushing the door
- Finished in anti-microbial (silver ion) silver paint

### Latch Door Solutions

#### Wing Handle

- Latch
- Pull

#### Cup Handle

Holds hand away from the door

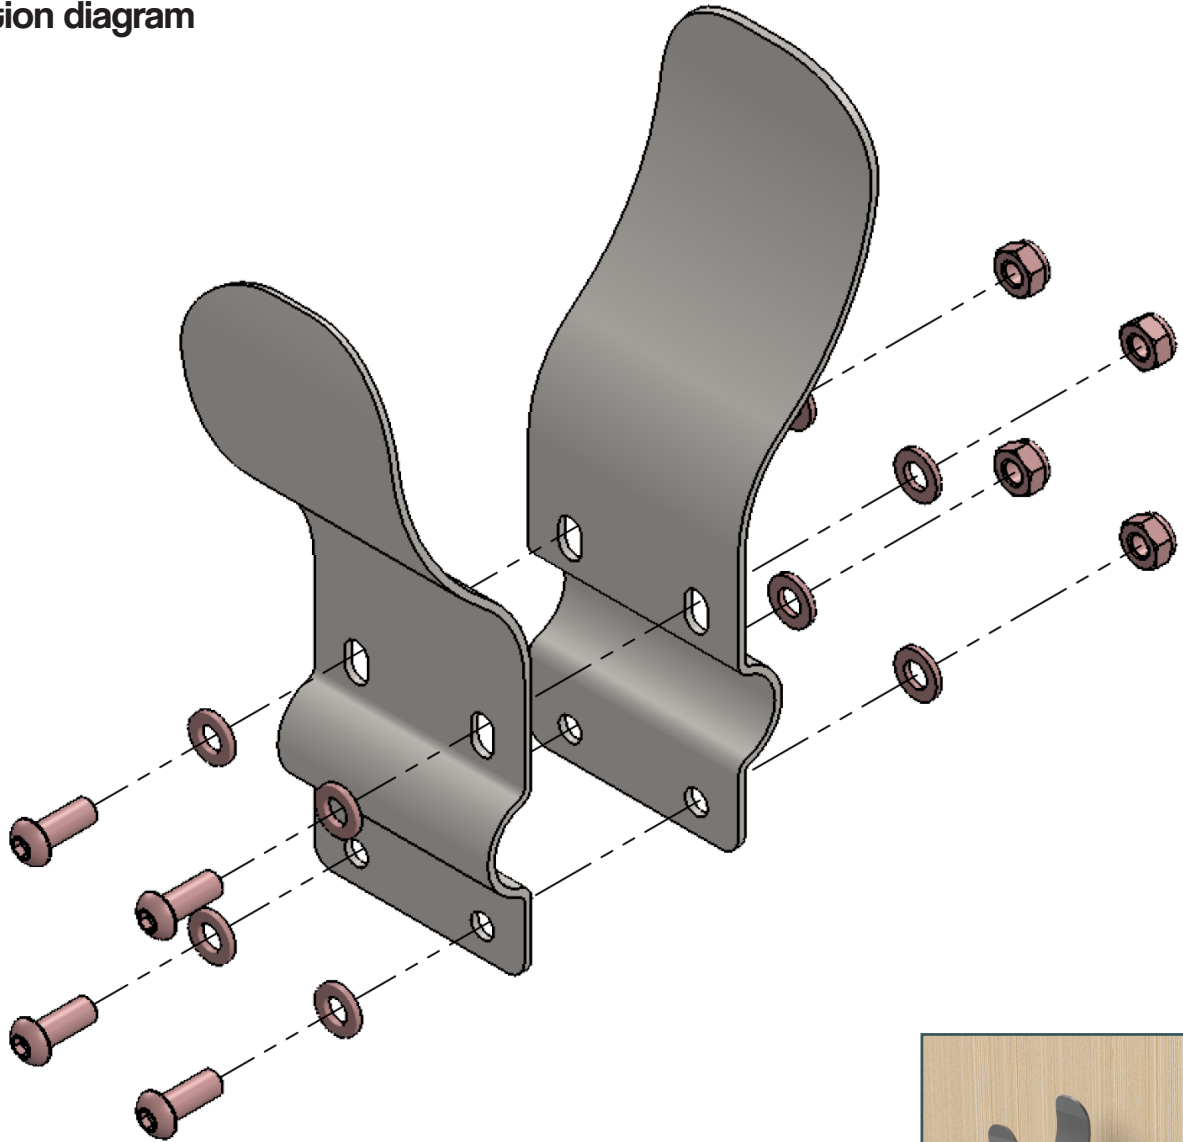

- Latch
  - Pull
  - Push
- FULL CONTROL**
