PLEXIGLASS PROTECTION SYSTEM

The current circumstances have raised a requirement for a new level of safety for the employees and customers. The retail sector, the food and beverage sector as well as services, are confronted with a social distancing challenge along with the need for a convenient, goods and services transaction.

Anti Covid 19 Plexi Protector is a product kit targeted to be offered to retailers, in order to be provided to consumers through their network.

Anti Covid 19 Plexi Protector attempts to condense the need for protection in an all in one product, moving away from custom solutions, to an off the shelf retail product.

The GOAL:

- The consumer avoids the hassle of custom made solutions.
- The consumer avoids a time consuming process until the custom made protective shield is delivered.
- The consumer avoids an unknown outcome.
- The consumer has an alternative from an off the shelf solution.

Different needs per market segment:

- Retail: Required Slot Height 7cm to 30cm
- Food & Beverage: Required Slot Height 10cm to 30cm
- Service sector: Required Slot Height 5cm to 15cm
- Office spaces: Required Slot Height 2.5cm to 10cm

Patented Design

Plug and Play

- No assembly required
- Tool free process
No drilling required on counter or desk surface

Flexible

Chose your desired height

One solution for all market segments.

The first All In One Protection System, with the unique flexibility of:

- Height adjustment based on the market segment needs, by providing the desired space for the transaction, as well as providing the required protection.
- Height can be adjusted from 2.5cm up to 30 cm, creating the right space(slot) from the counter/desk surface to the plexiglass, so that all kinds of products can go through and the transaction to be done in a safely manner.
- Tool Free System.
- No assembly required.
- Pre-installed 3M adhesive tape attached underneath the bases for any type of counter/desk surface. Sturdy construction, as these protective measures are here to stay.

Instant application

With just one move

Anti - Covid 19 Safety Shield

By adjusting the height of the plexiglass from the counter/desk surface, the required space is created safeguarding the goods or services transaction while providing the necessary protection.

A promo island serving 3 different needs:

1. Customer can test product.
